It is part of Nature's plan for human safety that in many cases where the blood is impure or corrupt she sets a sign on the body in proof of the corrupt current that is flowing through the veins. Scrofula with its disfiguring sores and scars, eczema with its irritation, saft rheum, tetter, erysipelas, boils, pimples and other eruptions are only the outward signs of the impurity of the blood. But often in the earlier or simpler stages of the blood's impurity there are no outward signs of this condition; only dull, languid, sluggish feelings, which are commonly attributed solely to the sluggishness of the liver.
